

TangOblivion

Passionate and versatile, professional show dancers and visionary choreographers Angeles and Michael are best known for their spectacular and breathtaking performances of the “Argentine Tango” –the authentic form of Tango that developed in Buenos Aires in the late 19th century and transformed into stage art-.

Internationally recognized dancers, they regularly appear in music and dance festivals in US and abroad, corporate entertainment events and major concert halls and theatres, in addition to making numerous television, film and TV commercials appearances as principal dancers.

The couple that belongs to stage, they portray a unique unforgettable style. Sensuality merged with power brings the look of a real show.

Using their creativity and extensive experience gathered through other forms of dance training (Ballet, Modern, Tango, Ballroom, Salsa, Folklore) this partnership expands the boundaries of traditional dance.
